C103-02 - Connecting PCs to CMRR server file shares

Connect to your server home directory

This will make a connection to your home directory on the servers.
Open Windows Explorer
Go to My Computer
Map Network Drive
\\range1.cmrr.umn.edu\userid
If you are on a CMRR domain PC, this is all that is required.

Connect directly to naxos for DICOM files

This will make a connection to the naxos directory on the servers.
Open Windows Explorer
Go to My Computer
Map Network Drive
\\naxos2.cmrr.umn.edu\dicom
If you are on a CMRR domain PC, this is all that is required.

Connect from the magnet console or a personally owned PC

Map Network Drive
\\range1.cmrr.umn.edu\userid (or \\naxos2.cmrr.umn.edu\dicom)
Connect using different credentials
Use your CMRR user id and password
The user id is entered like this: userid@cmrr.umn.edu
You can also try this: cmrr\userid

Expired password?

Your password must be changed every year - if it has expired, you will not be able to connect.
From a CMRR domain PC, you can use Ctl-Alt-Del to change your password,
or visit https://www.cmrr.umn.edu/access choose my profile, and change CMRR server
password.

At home, not on the VPN?

You must be on the CMRR VPN to connect to Windows file sharing from home.

Revision History

SOP Number / Version:	C103-02 / 1.3
Approval Date:	07/21/2015
Implementation Date:	07/21/2015
Author/Owner:	Brian Hanna / John Strupp

Version Number	Approval Date	Change from Previous Version
1.0	07/01/2015	
1.1	07/21/2015	Standard formatting
1.2	02/11/2016	Added connection to naxos/dicom
1.3	03/18/2020	Updating for naxos2 and user@cmrr.umn.edu
